Subject: Re: Gold King LOGS Farmington, NM - Acct Info

Hello

I see that the message I sent last night was blank.

Here is the intended info with apologies.

The Farmington ICP has rescinded their 213 RR request for an EPA logs Chief. They have doubled up on contractor support instead.

Consequentially, an EPA logistics Chief is NO LONGER NEEDED in Farmington ICP.

I apologize for the change in direction and thank Region 10 and Tana for the heroic efforts they undertook to fill the initial request late Friday.

I understand that we still may need logistics support for the r9 EOC AC to support ICS processes as originally discussed, however that need can likely be served remotely.

I will work with r9 EOC finance chiefs and RSC Coordinator to finalize an approach and get back to you ASAP.

At this time however, Andy does not need to deploy.

Please call me with any questions.

Andy, they will either need you in the REOC in Region 9 (San Francisco), or they might be able

to have you do the work from here. So maybe Sharon could make arrangements for you to fly to SF Sunday so you can start work on Monday. That way if they need you there you'll be set to go. Tana said she would give us more details as soon as possible.
